

INNOVATION DRIVES SUSTAINABILITY

Companies with sustainability initiatives who integrate Cat® Simulators into their training programs can help meet corporate initiatives while saving costs.

Replacing some traditional on-the-iron training with Cat Simulators training can make a huge impact. Machines burn fuel, oil and other fluids and give off emissions. Cat Simulators do not. Simulators consume electricity – but very little. The truly innovative can power Cat Simulators with available alternative sources.

No Emissions

No Fuel Used

No Oil Used

No Fluids Used

COST TO RUN CAT SIMULATORS:

72 x 10 **\$.072**
Kilowatts cents

72 (Kilowatts) x 10 cents
(electricity cost per Kilowatt hour)
