

CAT® SIMULATORS SIMLITE

COMPACT PORTABLE OPERATOR TRAINING

BUILT WITH AUTHENTIC CAT® CONTROLS

Learners experience hands-on training with the same controls as found in the actual machines. Developed with Cat® subject matter experts, training exercises are based on the same machine techniques used on real-world worksites. Training in a virtual environment ensures learners are safe and mishaps don't have the same impact as real-life accidents.

SIMSCHOLARS® CURRICULUM

Combine hands-on simulator training with SimScholars curriculum for a blended learning experience. The online platform is ideal for remote learning, providing a complete, turn-key solution. The combination means heavy equipment operators get to competency faster than traditional training methods.

- SimLite Models: Excavator, Dozer and Compact Track Loader
- Caterpillar-Licensed
- Authentic Cat® Controls
- Exercises Developed with Cat Experts

- Multiple Languages
- Measurable Benchmarks
- One-To-One Curriculum Available
